## The Dee Dee Jackson Foundation

The Dee Dee Jackson Foundation was started by Taj, Taryll and TJ Jackson. It is a non-profit organization built around the loving, giving spirit and legacy of their mother, Delores "Dee Dee" Jackson. Twenty-three years ago they lost their mother and on April 1st. having dealt with the loss of their mother, the brothers understood how important it was to help children deal with trauma and grief.

To honor her, on her 61st birthday the foundation was formed. The brothers set their first fundraising goal of \$61,000 to help children dealing with trauma, grief, bring awareness, volunteers and donations to underfunded, under-served youth programs everywhere. With the help of their diverse online community, Taj, Taryll and TJ plan to identify and help encourage stories of hope, courage and love through philanthropic partners, schools, churches, grass roots organizations and social media nominations.

Three times a year, a new story, hand-picked from the community submissions by Taj, Taryll and TJ will be sent out through social media outlets, viral sharing, video and grassroots efforts. A three part plan for participation and involvement will be based on a 3T-modeled program: TIME (volunteerism) THOUGHT (education) TENDER (fundraise).

Since forming the foundation, Taj, Taryll and TJ have worked in the studio together and created the "Chapter III" album. The song "Power of Love" was written in dedication to their mother and they created the song with a group of children from a local boys and girls club in LA. Their experience working with the children was featured on their hit television show "The Jacksons: The Next Generation." On the show the brothers also talk about the lost of their mother and Uncle Michael. The brothers also have a talk show connected to the Dee Dee Jackson Foundation on LA Talk Radio Station.

For more information:

If you would like to nominate a person, community program, organization that is helping children in need and deserves their spotlight, please tell Taj, Taryll and TJ their story at <http://ddjf.org>.

Follow **Dee Dee Jackson Foundation** on Twitter, Instagram and Facebook

"Power of Love" EP is now available on Amazon and iTunes!

Proceeds of the song will be donated to the Dee Dee Jackson Foundation.

## The Legacy Continues: Austin Brown Makes His Mark

He knew he wanted to perform music at an early age after seeing his mother on stage.

He was born to do what he is doing today. His name is Austin Brown and his mother is Rebbie Jackson Brown.

Growing up in a talented family gave him a chance to learn from those before him. Having a mother in the spotlight that understood his dreams but, wanted him to take his time, helped Austin develop even more of his sense of style.

His sisters, Stacee and Yashi Brown performed together early on before he would take the stage himself. Currently, Yashi Brown is becoming a well known poetess and activist in the mental health community.

Austin's uncles Jackie, Tito, Jermaine, Marlon and Michael better known to the world as the Jackson 5 and later the Jacksons when younger brother Randy joined the group, they all have become legendary musicians in their own right.

Michael Jackson was and is still known throughout the world as the "King of Pop", one of the greatest entertainers of all time; he loved the world and the people in it just as much as his music. He is known for his great humanitarian efforts across the globe, helping children who were sick and were in need of help.

Austin's aunt La Toya Jackson is making her mark as well, on being a successful business woman, running her own company, and giving her time and energy to several charity foundations.

His aunt Janet Jackson whom he considers one his best friends, is an actress, singer, performer, icon figure, fashion designer, hit maker, selling out millions and millions of concerts worldwide.

Cousins 3T Taj, Taryll, and TJ Jackson have also made music history around the world, just like Austin and future next generation Jackson family members to come.

pic from: <http://cdn-public.ladmedia.fr>.

It must seem like huge footprints to follow but, he does not want to be compared to his family members but, to learn from them instead.

Truly a gift from God and having an inspiring family has made Austin Brown the incredible artist he is today. There is no mistaking the talent he has on and off the stage.

Fans were shocked all around the world to hear of him releasing not one but, two albums at no cost to his fans. His humble heart and willingness to learn all he can has made him a fan favorite for many. The legacy will continue to grow.

We Love 3T and 85' encourages those of you who have not seen or heard Austin Brown to check out his Official Homepage at: [austintbrown.com](http://austintbrown.com) and our Austin Brown page at: <http://welove3t.weebly.com/austinbrown.html>.

## THE CARD/BOOKLET FOR THE JACKSON FAMILY...

We have received 112 Messages of Love, 53 Artwork designs and well over 66 pages for the card/booklet that was sent to the Jackson family. The one-of-a-kind book went to the Jackson family and was not for sale.

Christine Wallden was the winner of the cover contest for the booklet being sent to the Jackson family. Her artwork represented both the family, friends, and fans of the Jackson family.

I would like to take this time and thank everyone who sent in such beautiful messages, pictures, poems, and artwork for the Jackson Family card/booklet.

So many of you have sent in so many beautiful things that I didn't feel a card was just enough to give the Jackson family. Many of you went over and beyond and I wanted to express that to the Jackson family.

I also received really nice e-mails from all of you and I am truly thankful for your kindness. It truly is not just one or two reasons but, many different reasons why I dedicated a website for 3T the Jackson Family.

The Jackson family themselves do not mind reaching out to their fans and saying thank you, which I love. As a fan it truly makes you feel appreciated.

I made new friendships through the experience which I am happy about and the best thing of all would be the special Michael Jackson connection with everyone.

I am glad that this website has become not only a place for fans to learn positive and truthful information about the Jackson family and express themselves as fans of the Jackson family but, it has become a great place for us to unite and do special projects to show love and support for the Jackson family and fellow Jackson family friends. It has truly been a great blessing to me.

I would also like to especially thank Mr. Jerry Biederman and the Michael Jackson Tribute Portrait family and friends for supporting us and spreading the news about the card/booklet.

My heart has truly been touched by many of you and I am truly thankful for all of your love and support. God Bless.

Truly We Love 3T has grown over the last 10yrs. And I am forever grateful for the love and support from everyone.
